Uprating of state pensions

EDM 1600: tabled on 08 March 2021

Tabled in the 2019-21 session.

This motion has been signed by 32 Members. It has not yet had any amendments submitted.

Motion text

That this House regrets that over half a million UK pensioners continue to have their pensions frozen as a result of where they live and notes that 90 per cent of those people live in Commonwealth countries with which the UK has strong cultural and historical ties; is further concerned that this leaves UK citizens without the financial support needed to maintain livelihoods and dignity in retirement and believes all pensioners should be paid the full state pension wherever they live; welcomes the Canadian Government's request for a reciprocal social security agreement with the UK to cover the uprating of pension payments; and urges the Government to respond positively to this request as a first step to end this injustice for UK pensioners everywhere.
